

Ability Borders started its Community Connectors Project to help those wishing to use a care alarm service but who had no-one who could act as their first responders.

We are now seeking volunteers, across all areas of the Scottish Borders, who would be happy to offer their help to someone in their local community who needs a point of contact for their care alarm provider.

**If you would like to know more, please email us at: [enquiries@abilityborders.org.uk](mailto:enquiries@abilityborders.org.uk)**

[Leaflet](#) | [Volunteer Registration](#) | [Referral Form](#)

**We especially need volunteers as we are seeing a rise in referrals who require 2 responders**

**We look forward to hearing from you!**
